

## Packages - Freedom Issue #1914

### [psensor] Psensor depends on nonfree libxnvctrl

2018-07-26 07:31 PM - No0n3Left

<b>Status:</b> fixed	<b>% Done:</b> 100%
<b>Priority:</b> freedom issue	
<b>Assignee:</b> freemor	
<b>Category:</b>	
<b>Description</b> Psensor has the dependency libxnvctrl in the Arch version of the package, however, it can be compiled (with the same MAKEPKG even) without libxnvctrl. The only difference needed to get the package to work without a non-free dependency (right now it wont install because the dependency conflicts with your-freedom) is removing libxnvctrl from dependencies.	

#### History

Looks good. Thanks No0n3Left  
With the addition of 'i686' it builds for that too. Not armv7h for some reason.

If no one has any complaints I'll toss it into libre and make/stage/release it.

Quick point of clarification.. should I drop the pkgrel to 1.parabola1 as it is technically a new package?

##### #5 - 2018-08-09 10:18 PM - No0n3Left

Based on the wiki ([https://wiki.parabola.nu/Creating\\_libre\\_packages#The\\_easy\\_part](https://wiki.parabola.nu/Creating_libre_packages#The_easy_part)), I think you would leave it psensor-1.2.0-5.parabola.1:

Nowadays .parabola\${PARABOLA\_RELEASE\_COUNT} is appended to pkgrel, for instance:

```
pkgrel=5
```

becomes

```
pkgrel=5.parabola1
```

##### #6 - 2018-08-23 08:19 PM - freemor

- % Done changed from 0 to 90

Added to Libre  
Built for x86\_46  
will build for i686 once a perl dependency conflict clears

##### #7 - 2018-09-16 12:52 AM - freemor

- % Done changed from 90 to 100

- Priority changed from bug to freedom issue

- Status changed from open to fixed

forgot to close this when I built for X32

all done for now
