

Installation Media - Bug #2029

systemd cli 64-bit (x86_64) Net Install - pacstrap missing key

2018-10-07 06:53 PM - j2lapoin

Status:	info needed	% Done:	0%
Priority:	bug		
Assignee:	bill-auger		
Category:	LiveISO		
Description			
I was following the Installation guide on parabola.nu, when suddenly I did encounter a Bug. After typing pacstrap /mnt base, I get as error:			
error: key "2C146C01A952AC0F" could not be looked up remotely error: required key missing from keyring			
I did ask questions on #parabola, but no one did put the finger on it...			

History

#1 - 2018-10-10 12:28 PM - bill-auger

- Assignee set to bill-auger
- Status changed from open to info needed
- Category set to LiveISO
- Subject changed from systemd cli 64-bit (x86_64) Net Install to systemd cli 64-bit (x86_64) Net Install - pacstrap missing key
- Project changed from Packages to Installation Media

before running pacstrap, did you first run each of the commands, typed exactly as shown, and in the same order as listed in section #1 here: https://wiki.parabola.nu/Parabola_Keyring
