

Packages - Bug #2090

[systemd] 239.300-1.par1 broke mkosi

2018-11-12 03:08 PM - lukeshu

Status:	wont-fix	% Done:	0%
Priority:	bug		
Assignee:	lukeshu		
Category:			
Description			
The systemd 239.2-1.parabola1 → 239.300-1.par1 update broke mkosi. When installing the bootloader, systemd-nspawn throws some error about a socket already in use.			

History

#1 - 2018-11-14 09:13 PM - lukeshu

<https://github.com/systemd/mkosi/issues/280>

#2 - 2024-02-26 02:35 AM - lukeshu

- Status changed from open to wont-fix

Probably fixed upstream by now, but closing as "invalid" because mkosi is currently blacklisted.
