History

#1 - 2018-12-12 04:45 AM - bill-auger

- Status changed from open to info needed
- Subject changed from deepin-screenshot not run to [deepin-screenshot]: not run
- Project changed from Installation Media to Packages
- Tracker changed from Porting to Bug

is there a particular reason this on the "Installation media" tracker? - there is nothing from deepin on the LiveISOs - i will move it to "Packages" for now

what is the arch of the parabola you are running when this happens? - the program works fine for me on x86_64

#2 - 2018-12-12 05:34 AM - bill-auger

arescorpio is running x86_64/openrc

#3 - 2018-12-28 07:56 PM - arescorpio

- Subject changed from [deepin-screenshot]: not run to [deepin-screenshot]: OK Solventado!

#4 - 2018-12-29 12:25 AM - bill-auger

- Status changed from info needed to not-a-bug
- Subject changed from [deepin-screenshot]: OK Solventado! to [deepin-screenshot]: not run
