Packages - Bug #2118

[rxvt-unicode-pixbuf] Broken: needs rebuild with latest perl

2018-12-16 03:44 PM - dllud

Status:	fixed		**% Done:**	100%
Priority:	bug			
Assignee:	freemor			
Category:				

Description

Hi,

This package is now broken due to updates to perl:

```
$ urxvt
urxvt: error while loading shared libraries: libperl.so: cannot open shared object file: No such file or directory
```

Doing a ln -s /usr/lib/perl5/5.28/core_perl/CORE/libperl.so /usr/lib/libperl.so does this:

```
$ urxvt
./rxvtperl.c: loadable library and perl binaries are mismatched (got handshake key 0xde00080, needed 0xce00080)
[1]    24326 segmentation fault (core dumped)  urxvt
```

Please rebuild it.

History

#1 - 2018-12-16 05:13 PM - freemor

- % Done changed from 0 to 80

- Status changed from open to in progress

X86_64 rebuilt, tested, pushed.

Checking status on i686 build....

#2 - 2018-12-16 05:28 PM - freemor

- % Done changed from 80 to 90

- Assignee set to freemor

i686 built,tested,released

Rebuilding for armv7h just for completeness

#3 - 2018-12-16 05:54 PM - freemor

- % Done changed from 90 to 100

- Status changed from in progress to fixed
