

## Packages - Bug #2145

### [texlive-bin][cups-filters] installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1'

2019-01-20 08:54 AM - Rigo-V

<b>Status:</b> fixed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b> GNUtoo	
<b>Category:</b>	
<b>Description</b> Can't update the system with pacman -Syu:  :: installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1' required by texlive-bin	
<b>Related issues:</b> Related to Packages - Bug #2173: [texlive-bin] [poppler] installing poppler (... <b>fixed</b> Related to Packages - Bug #2207: [i686] rebuild [texlive-bin][cups-filters] t... <b>duplicate</b>	

## History

### #1 - 2019-01-20 05:06 PM - GNUtoo

Fixed on i686 and x86\_64, waiting for arm to build

### #2 - 2019-01-20 05:08 PM - GNUtoo

The arm build is failing with:

```
| ==> Creating source package...
| -> Adding PKGBUILD...
| -> Generating .SRCINFO file...
| -> Adding texlive-source...
| -> Adding pdftex-poppler0.72.patch...
| -> Adding luatex-poppler-fixes.patch...
| -> Adding xetex-poppler-fixes.patch...
| -> Adding freetype-pkgconfig.patch...
| -> Adding syncTeX-missing-header.patch...
| -> Compressing source package...
|
| gzip: stdout: No space left on device
| bsdtar: Write error
| ==> ERROR: Failed to create source package file.
| ==> ERROR: Could not download sources.
```

While I do have space on /:

```
Size Used Avail Use% Mounted on
25G 12G 13G 49% /
```

### #3 - 2019-01-20 05:09 PM - GNUtoo

- Subject changed from [texlive-bin] installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1' to [texlive-bin][armv7h] installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1'

### #4 - 2019-01-20 07:32 PM - bill-auger

perhaps that gzip command is exploding into /tmp - maybe that is where you have insufficient space

### #5 - 2019-02-24 07:47 PM - bill-auger

- Related to Bug #2173: [texlive-bin] [poppler] installing poppler (0.74.0-1) breaks dependency 'poppler=0.73.0-1' required by texlive-bin added

### #6 - 2019-02-24 08:13 PM - bill-auger

- Related to Bug #2207: [i686] rebuild [texlive-bin][cups-filters] to use latest poppler added

**#7 - 2019-02-24 08:23 PM - bill-auger**

- Assignee set to GNUtoo

GNUtoo -

this is still broken for i686 - someone just reported a duplicate Bug [#2207](#)

```
# pacman -Sy texlive-bin cups-filters

:: The following packages cannot be upgraded due to unresolvable dependencies:
    texlive-bin  cups-filters

:: Do you want to skip the above packages for this upgrade? [y/N]
:: unable to satisfy dependency 'poppler=0.72.0-1.0' required by texlive-bin
:: unable to satisfy dependency 'poppler=0.72.0' required by cups-filters
```

also, poppler 0.74 for i686 is in [staging] now so we will want to watch this one

**#8 - 2019-02-24 08:38 PM - bill-auger**

- Subject changed from *[texlive-bin][armv7h] installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1' to [texlive-bin][cups-filters] installing poppler (0.73.0-1) breaks dependency 'poppler=0.72.0-1'*

**#9 - 2019-02-27 08:33 PM - GNUtoo**

- Status changed from open to fixed

It should be fixed again on i686 now.

Reopen the bug if it breaks again or if it's not fixed for you.
