

Packages - Bug #2167

[openshot] Multiple issues

2019-02-04 02:49 PM - freemor

Status: fixed	% Done: 100%
Priority: bug	
Assignee: freemor	
Category:	
Description	
nonprism/openshot:	
- Out of sync with libre/openshot	
- Complains of missing icons on start-up	
Both libre and nonprism openshot:	
- fail to run on i686 (and probably ARM) due to being an "-any" build and various libraries being out of sync notably; libquicktime, dependencies there of, and dvgrab	

History

#1 - 2019-02-04 07:21 PM - freemor

pushed up-to-date libquicktime build to i686. openshot now installs there

#2 - 2019-02-04 07:26 PM - freemor

libre/openshot which is newer then nonprism/openshot does not suffer the missing icons issue.

#3 - 2019-02-04 08:01 PM - freemor

Also pushed up-to-date libquicktime for ARM

#4 - 2019-02-09 01:54 PM - freemor

- % Done changed from 0 to 100

- Assignee set to freemor

brought nonprism/openshot current with libre/openshot. Fixes missing icon issue
pushing updated libquicktime fixed the missing libs issue.
closing this as fixed

#5 - 2019-02-09 01:55 PM - freemor

- Status changed from open to fixed
