Description

Updating with pacman -Syu on x86_64 gives the following error:

```
installing poppler (0.74.0-1) breaks dependency 'poppler=0.73.0-1' required by texlive-bin
```

This bug is similar to #2145, but with new versions:

- poppler upgrading to 0.74.0-1 instead of 0.73.0-1
- texlive-bin requires poppler 0.73.0-1 instead of 0.72.0-1
