Category:	
Description	
After updating libvpx, both Iceweasel and Icecat refuse to start.	
Running the following command fixes the problem:	
<pre>ln -s /usr/lib/libvpx.so /usr/lib/libvpx.so.5</pre>	

History

Confirmed here. Iceweasel needs to be rebuilt.

Here's the full error for anyone searching for it:

```
XPCOMGlueLoad error for file /usr/lib/iceweasel/libxul.so:  
libvpx.so.5: cannot open shared object file: No such file or directory  
Couldn't load XPCOM
```
