[lxappearance-gtk3]: segfault

2019-03-07 03:07 PM - daniel-molina

Status: confirmed	% Done: 0%
Priority: bug	
Assignee:	
Category:	
Description Just executing the program it returns a segfault \$ lxappearance Segmentation fault (core dumped)	

History

#1 - 2019-03-07 03:34 PM - bill-auger

it runs fine for me - maybe you may have a theme or some mouse cursors that are borked

normally i would suggest to try making a new user; but didnt you just install this yesterday?

#2 - 2019-03-07 09:35 PM - daniel-molina

I run it with gdb:

```
(gdb) run
Starting program: /usr/bin/lxappearance
[Thread debugging using libthread_db enabled]
Using host libthread_db library "/usr/lib/libthread_db.so.1".
[New Thread 0x7ffff3d5f700 (LWP 2295)]
[New Thread 0x7ffff35e700 (LWP 2296)]

Thread 1 "lxappearance" received signal SIGSEGV, Segmentation fault.
0x00007ffff6facc70 in cairo_surface_get_content () from /usr/lib/libcairo.so.2
```

Yes, installed the system just some days ago.

#3 - 2019-03-07 09:57 PM - daniel-molina

I add the backtrace

```
(gdb) backtrace
#0  0x00007ffff6facc70 in cairo_surface_get_content ()
    at /usr/lib/libcairo.so.2
#1  0x00007ffff77f0dbe in gdk_pixbuf_get_from_surface ()
    at /usr/lib/libgdk-3.so.0
#2  0x00007ffff2ce843d in preview_theme ()
    at /usr/lib/lxappearance/plugins/obconf.so
#3  0x00007ffff2ce8b66 in preview_update_all ()
    at /usr/lib/lxappearance/plugins/obconf.so
#4  0x00007ffff2ce9329 in theme_load_all ()
    at /usr/lib/lxappearance/plugins/obconf.so
#5  0x00007ffff2ce6cc2 in plugin_load ()
    at /usr/lib/lxappearance/plugins/obconf.so
#6  0x000055555555d301 in plugins_init ()

- Status changed from unconfirmed to confirmed

- Subject changed from lxappearance segfault to [lxappearance-gtk3]: segfault

i believe that this is confirmed now - the segfault is with lxappearance-gtk3
