

Packages - Freedom Issue #225

[enscript] missing license for AFM files

2012-11-19 07:14 AM - mtjm

Status: fixed	% Done: 100%
Priority: freedom issue	
Assignee: mtjm	
Category:	
Description	
The same as https://savannah.nongnu.org/bugs/?35885 , most probably can be fixed by updating to 1.6.6.	
Thanks to cyfr0n from #gnewsense-dev for motivating me to check that this occurs in Parabola.	

History

#2 - 2012-11-24 05:04 AM - mtjm

Now it's in libre/enscript (not renaming since there is no need for it and it would make future updates to 1.6.6 or later from Arch more difficult). Needs i686 and mips64el packaging, I can do mips64el.

#3 - 2012-11-24 06:03 AM - mtjm

Fixed, thanks Aurelien for the i686 package.
