**Description**

Launching clementine gives the following error:

/usr/bin/clementine: error while loading shared libraries: libcdio.so.18: cannot open shared object file:
No such file or directory

Rebuilding with no changes fixes the issue.

**History**

**#1 - 2019-04-25 09:32 PM - freemor**

Starting x86_64 rebuild

**#2 - 2019-04-25 10:47 PM - freemor**

*- % Done changed from 0 to 30*

*- Assignee set to freemor*

*- Status changed from unconfirmed to in progress*

X86_64 built - pushed
starting armv7h rebuild

**#3 - 2019-04-26 11:43 AM - freemor**

*- % Done changed from 30 to 100*

*- Status changed from in progress to fixed*

Armv7h - rebuilt, pushed
i686 - still on previous libcdio. No rebuild required

Closing as fixed for now
