- Status changed from unconfirmed to in progress

Poppler 0.76.0 has landed in x86\_64 and will be coming to arm as soon as out repos catch up. I've bumped and rebuilt cups\_filters x86\_64. committed the bumped pkgbuild couldn't rebuild armv7h as our repos havent synce'd the new poppler yet

other packages need rebuilds. texlive-bin, etc.

In tied up right now so can't get to them.

Made this BR so Devs can post what they are rebuilding to prevent duplication of effort.
