- Status changed from unconfirmed to info needed

First question: Do you have audit installed?

Second question: Openrc or systemD and what type of CPU

#### #2 - 2019-05-02 05:06 PM - libreuser

1. 'audit' not installed

2. openrc  
x64

Install audit. that'll fix ya right up

Let us know how that goes so we can close this BR or  
Figure out other steps

pacman -S audit

no 'libaudit' warning message for now in pacman -Syu. :)
