Description	
I am trying to install CUPS with: # pacman -Su cups cups-pdf cups-openrc cups-drivers lib cups-filters and I get the following errors: :: Running post-transaction hooks... (1/4) Updating icon theme caches... (2/4) Creating system user accounts... usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory groupadd: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory useradd: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory groupadd: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory useradd: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory usermod: error while loading shared libraries: libaudit.so.1: cannot open shared object file: No such file or directory (3/4) Updating the info directory file... (4/4) Updating the desktop file MIME type cache...
