<b>Category:</b>	
<b>Description</b> openmw-wizard is removed from openmw package, but launcher might ask user to launch it. When user attempts to do it, there is an error which says OpenMW might be installed incorrectly, so user might think Parabola package is broken. Any references to Installation Wizard must be removed.

[bill-auger](#), once the package has been updated, please may you check it does not otherwise recommend nonfree data?  
It also contains a typo in the description.
