- Category set to OpenRC

#2 - 2019-07-19 10:48 AM - Anonymous

This is fixed by the following hack:

`su -` or maybe even `su`, opening another display.

#3 - 2019-07-19 12:30 PM - Anonymous

Only `su -`.

#4 - 2019-07-19 03:07 PM - freemor

This issue is covered here:

https://wiki.parabola.nu/OpenRC#Launch_X11_without_root_access

Also it was already covered [#2271](#)

Please do check for existing BRs before filing a new one.

#5 - 2019-07-19 03:12 PM - bill-auger

i think this is about the behavior of the LiveISO, not the installed system?

#6 - 2019-07-19 05:11 PM - freemor

In that case then this changes to a "info needed". Just tried the iso (parabola-openrc-lxde-2019.03.11-dual.iso) all apps I clicked worked, Opened a terminal. apps launched from the terminal work (Terminal defaults to user root)

Can the OP please provide steps to reproduce.

Thanks

#7 - 2019-07-19 07:47 PM - Anonymous

I have opened lxterminal, done *something* (not sure what), then all applications refused to start, including new terminals (not windows).

This issue cannot be reproduced in other ttys.

#8 - 2019-07-19 07:48 PM - Anonymous

I'm not sure as I have not installed it.
