<b>Description</b> There are 'Edit' (issues and comments) and 'Delete' (comments only) buttons.  Edit says 406 Not Acceptable.  Delete says 404 Not Found.  These buttons must be removed or renamed ('Display 406', 'Display 404').

Those buttons work fine for me. Just used them earlier on issue 2397  
And on this issue to add this line...

So they definitely work.. Do you have JS enabled? As those buttons require JS

JS is disabled.  
They should work without JS.
