Description <ul style="list-style-type: none">• local CacheDir to chroot's• user home (if working from inside the chroot)	

History

#2 - 2012-11-28 12:42 AM - mtjm

I don't want to make my home accessible from the chroot, otherwise this seems ok.

#3 - 2012-11-28 11:50 AM - lukeshu

I'm confused how to do this, since the original directory is not accessible to the chroot.

#6 - 2012-12-02 10:09 AM - lukeshu

This is now a composition of [#261](#) and [#262](#), closing.
