Packages - Bug #2401

[lightspark] Rebuild request

2019-07-23 07:06 PM - Anonymous

Status:	fixed	**% Done:**	0%
Priority:	bug		
Assignee:	bill-auger		
Category:			

Description
Lightspark was built with missing library: `lightspark: error while loading shared libraries: libLLVM-6.0.so: cannot open shared object file: No such file or directory` I have LLVM 8.0 from testing.

- Assignee set to bill-auger

- Status changed from open to forwarded upstream

- Tracker changed from Packaging Request to Bug

ok i did not realize LLVM would be a run-time dependency - i did not actually try to run the program - i dont have any swf files ATM

will it work if you install 'llvm6' ? - i had a problem with that myself - i needed to completely remove 'llvm7' before i could install 'llvm6'

this program will not compile OOTB against 'llvm7' or 'llvm8' - i opened a BR upstream about that already

#3 - 2019-09-22 09:31 PM - bill-auger

- Status changed from forwarded upstream to fixed

the upstream has released 0.8.2 which compiles successfully with LLVMv8
