Sorry for the description in the attachment. I tried to post just plain text, and put only links to the file, but spam filter didn't think it's OK.

- File *iceweasel_new_tab_69.0.png* added

- File *iceweasel_new_tab_68.0.2.png* added

I found an older build of 68.0.2, which I packaged for myself with some new changes from Arch, and only DuckDuckGo logo is shown from the listed above. Please see attached screenshots for comparison.
