

Installation Media - Bug #25

Adapt connos installer and ISO creation to parabola

2012-02-28 07:08 PM - fauno

Status: not-a-bug	% Done: 0%
Priority: feature	
Assignee:	
Category:	
Description Connos used a simpler ISO creation script and AIF process. We should use this to create our new ISOs, plus it will be useful for creating custom images, like the GNOME live ISO.	

History

#2 - 2014-10-03 05:33 PM - alfplayer

- Project changed from Packages to Installation Media

#3 - 2018-01-09 10:01 PM - bill-auger

- Status changed from open to not-a-bug

the parabolaiso scripts have been modified to consolidate the image configurations, allowing for selecting any combinations of init systems, wm/desktops, and netinstall vs offline install via command line args
