- Project changed from Documentation to Packages

confirmed:

```
$ blender
```

```
blender: error while loading shared libraries: libOpenImageIO.so.1.8: cannot open shared object file: No such file or directory
```

```
$ pacman -Ss blender
```

```
libre/blender 17:2.79.b.git7.054dbb83-2.parabolal
```

there are other open tickets for blender rebuild that i tied to this one - [#1978](#) was left open because of a problem building on i686; and [#2374](#) was left open because of a problem building on ARM

[#2135](#) may also be of interest -blender initially had trouble with ARM then also; but IIRC that was the last time it build successfully for ARM

- % Done changed from 0 to 30

v2.80 for x86_64 is in the repos now but i686 and ARM both have problems still

- Subject changed from [blender]: not run Intel & nvidia on x86_64 to [blender]: needs rebuild x86_64

the latest releases of the usual culprits broke x86_64

openimageio-2.0.13-1
libglvnd-1.3.0-1
openvdb-7.0.0-1

```
$ blender
blender: error while loading shared libraries: libopenvdb.so.6.2:
cannot open shared object file: No such file or directory
```
