

libretools - Bug #253

The help output of every command looks a little different.

2012-11-28 08:23 PM - lukeshu

Status: fixed	% Done: 100%
Priority: bug	
Assignee: lukeshu	
Category:	
Description	
Proposed guidelines:	
The format should be:	
Usage: <code>\${0##*/} [OPTIONS] THINGS_IN_UPPERCASE</code> One line description of program	
Optional longer description of behavior.	
Options:	
Optional subsection: (indented 1 space)	
-o <CAPITAL> Description starting after 16 columns. (the option is indented with 2 spaces)	
-----> <-- 16 columns	
123456789	
0123456	
The '-h' option to get help is listed last, with then description "Show this message".	

History

#2 - 2012-11-28 08:24 PM - lukeshu

edit: nevermind

#4 - 2012-12-09 02:05 PM - lukeshu

fixed for librechroot and libremakepkg:

<https://projects.parabolagnulinux.org/packages/libretools.git/commit?id=20e7d270d9cdc3126fa159ccd2870f8e24d7d0c8>

#5 - 2013-10-01 05:50 PM - lukeshu

The ``prose()``, ``bullet()``, and ``flag()`` routines in libremessages now make formatting the output consistently really easy.

#6 - 2014-01-05 04:17 AM - lukeshu

- Status changed from open to in progress

#7 - 2014-04-13 09:42 AM - lukeshu

- Status changed from in progress to fixed

- % Done changed from 90 to 100

Close enough. The last hold-outs were the commands from devtools.
