Description I wanted to comment on issue #2194 , but I always received the message "Description has to be filled out" ["Beschreibung muss ausgefüllt werden" in german]. - I was logged in. - Browser: Iceweasel - No attachments. Why can't I comment on this?

On this issue, I can comment without any problems... (test)

the OP (me) did not give any description when creating the ticket - apparently, the software requires a description for some features to work; but does not prevent a ticket from being created without one

i added a description; so you should be able to comment now
