History

#1 - 2019-12-01 02:15 AM - eliotime3000

iceweasel runs flawlessly fine in safe mode, but after refresh the browser, it doesn't appear and the message in the terminal is the following:

```
JavaScript error: resource://gre/modules/AutoCompletePopup.jsm, line 113: NS_ERROR_ILLEGAL_VALUE: Component returned failure code: 0x80070057 (NS_ERROR_ILLEGAL_VALUE) [nsIObserverService.removeObserver]

```

#2 - 2019-12-01 02:18 AM - bill-auger

we could not reproduce that error

does the program run when launched with `iceweasel --safe-mode`?

does the program run when launched from a .desktop icon?

do you have 'iceweasel-hardened-preferences' installed?

do you have any additional add-on installed? - you could try disabling them

#3 - 2019-12-01 02:25 AM - bill-auger

it is likely you could fix the problem by deleting your user profile directory

```
$ rm -rf ~/.mozilla/firefox/*.profile/
```

that will reset any customizations you have made though

or use a bigger hammer and delete the entire mozilla directory:

```
$ rm -rf ~/.mozilla/
```

which will reset any customizations you have made in any mozilla program, icedove, icecat, etc

#4 - 2019-12-01 02:28 AM - eliotime3000

After wipe out my .mozilla folder, the result gets worse:

```
JavaScript error: resource://gre/modules/AutoCompletePopup.jsm, line 113: NS_ERROR_ILLEGAL_VALUE: Component returned failure code: 0x80070057 (NS_ERROR_ILLEGAL_VALUE) [nsIObserverService.removeObserver]
JavaScript error: resource://gre/modules/AsyncShutdown.jsm, line 694: Error: Phase "profile-before-change" is finished, it is too late to register completion condition "JSON store: writing data"
JavaScript error: resource://services-common/kinto-offline-client.js, line 603: Error: IndexedDB getLastModified() The operation failed for reasons unrelated to the database itself and not covered by any other error code.
```

#5 - 2019-12-01 02:39 AM - eliotime3000

Result of Iceweasel running with firejail:

#7 - 2019-12-01 03:41 AM - eliotime3000

OK. I found the cause of the problem.

The main issue was the language pack. I've uninstalled the iceweasel-l10n-es-ar package and the problem has been solved by art of magic. Maybe the rest of language packs could have the same issue, so I'll share this bug report into the troubleshooting related to Iceweasel language pack thread.

Thanks by their comprehension and apologizes by all the suffering.

#8 - 2019-12-03 09:25 PM - eliotime3000

Now, the error of the Iceweasel language pack has been created in the [Bug #2571](#): [iceweasel-l10n-es-ar][iceweasel-l10n-pl]: Iceweasel doesn't start with some language packs bug report. Any comment related with the error reported here with the iceweasel-l10n-es-ar language pack must on the bug report quoted previously.

#9 - 2019-12-18 05:12 PM - grizzlyuser

The error message looks like the one I mentioned earlier in [1] (see # 6). Perhaps branding files in langpacks should be updated the same way as in that patch.
