Description			
After running `pacman -Syy`, then trying to install a package with `pacman -S openconnect`, I get this error:			
resolving dependencies... looking for conflicting packages...			
Packages (3) stoken-0.92-3 vpng-1:0.5.3.r462.r78-1 openconnect-1:8.05-1			
Total Installed Size: 3.64 MiB

For the time being, I've moved this file out of the hooks directory, and was able to remove yay and install openconnect. You mentioned that the hook file in question is no longer used. If you're sure then I could delete it, but for now, I'll just leave it in the space I put it, out of the way.

- Parent task set to #2549

#5 - 2019-12-12 05:48 AM - bill-auger

- Status changed from unconfirmed to confirmed

- Category set to LiveISO

- Project changed from Packages to Installation Media

this is because the pacman on the LiveISO is outdated - upgrading the live system pacman, allows pacstrap to complete - i will move this to the "installation media" category until the [nonsystemd] dust has settled

```
# pacman -Sy pacman
```
