Category:	
Description libre/mplayer and other programs have unmet dependencies - they are installed but no longer in the repos \$ sudo pacman -Syu :: installing xorgproto (2019.2-2) breaks dependency 'dmxproto' required by libdmx :: installing xorgproto (2019.2-2) breaks dependency 'xf86dgaproto' required by libxxf86dga	

History

#1 - 2019-12-23 01:15 PM - bill-auger

- Status changed from confirmed to not-a-bug

a news item was posted on the parabola front page about this problem - per:

<https://lists.archlinux.org/pipermail/arch-announce/2019-December/000399.html>

due to some recent changes in arch, manual intervention may be required if you hit any errors of the form:

```
:: installing xorgproto (2019.2-2) breaks dependency * required by *
```

to correct dependency errors related to 'xorgproto':

```
# pacman -Qi libdmx &>1 && pacman -Rdd libdmx  
# pacman -Qi libxxf86dga &>1 && pacman -Rdd libxxf86dga  
# pacman -Syu
```

#2 - 2019-12-24 08:32 AM - bill-auger

- Status changed from not-a-bug to confirmed

- Subject changed from [mplayer][xorgproto]: installing xorgproto (2019.2-2) breaks dependency ... to installing xorgproto (2019.2-2) breaks dependency ...

#3 - 2019-12-25 01:15 AM - libreuser

when:
pacman -Rdd libdmx libxxf86dga
returns:
error: not found: libdmx **AND exit without erase libxxf86dga**

i had to run (separately):
pacman -Rdd libxxf86dga

:/
