

Packages - Bug #2592

[qtcreator] needs rebuild against [qbs]

2020-01-06 09:33 AM - theova

Status: fixed	% Done: 0%
Priority: bug	
Assignee: bill-auger	
Category:	
Description	
As of the update of [extra/qbs], [libre/qtcreator] needs a rebuild. Without a rebuild, I get the following error message when opening qtcreator:	
<pre>/usr/lib/qtcreator/plugins/libQbsProjectManager.so: Cannot load library /usr/lib/qtcreator/plugins/libQbsProjectManager.so: (libqbscore.so.1.14: cannot open shared object file: No such file or directory)</pre>	
A rebuild of [libre/qtcreator] solves this issue. When rebuilding qtcreator, please note the patch for updating qtcreator to the newest version 4.11.0: https://lists.parabola.nu/pipermail/dev/2019-December/007581.html
