History

#1 - 2020-01-15 01:04 AM - freemor

- % Done changed from 0 to 10
- Assignee set to freemor

[extra/ffmpeg] would be an upstream issue.
[libre/libquicktime] probably just needs a quick rebuild

#2 - 2020-01-15 01:58 AM - freemor

- % Done changed from 10 to 100
- Status changed from open to fixed

Rebuilt and pushed for x86_64 and armv7h
ffmpeg + x264 + libquicktime all living happily together
Marking as fixed will rebuild for i686 when the new x264 lands there
