

Installation Media - Bug #2633

cryptsetup not available on CLI OpenRC iso

2020-02-15 07:03 PM - kathor

Status: not-a-bug	% Done: 0%
Priority: bug	
Assignee: Megver83	
Category: OpenRC	
Description I booted the CLI OpenRC iso on my librebooted i686 machine (ThinkPad T60) Typing "cryptsetup" returns that only "_cryptsetup" is available	
Related issues: Related to Installation Media - Feature Request #2900: add 'cryptsetup' to op... open

install it from the live system then, it's very easy, just type "pacman -S cryptsetup" and you're done

the pacman install hook runs mkinitcpio, which will fail by default because there is no kernel under /boot

to install cryptsetup into a running parabola live system:

```
# ln -s /run/parabolaiso/bootmnt/parabola/boot/x86_64/vmlinuz /boot/vmlinuz-linux-libre
# pacman -S cryptsetup
```
