

Packages - Freedom Issue #273

Write a script finding (optional) dependencies on blacklisted unreplaced packages and fix them

2012-12-06 01:12 PM - mtjm

Status: fixed	% Done: 0%
Priority: freedom issue	
Assignee: ovruni	
Category:	
Description We change some packages to not have such dependencies, there are more that need such changes, since these usually recommend nonfree software like unrar.

- File *optional-blacklisted.sh* added

I created a script to check optional dependencies blacklisted.

```
==> Checking packages...
libre/apache-ant: beanshell
libre/jh: maven
extra/opencv: libcl
extra/totem: lirc-utils
community/asciidoc: fop
community/dkms: linux-headers
community/dkms: linux-lts-headers
community/luxmark: openc1-nvidia
community/mapnik: mod_fastcgi
community/openc1-headers: libcl
community/openttd: openttd-opensfx
community/python-nltk: nltk-data
community/python2-nltk: nltk-data
community/tlp: x86_energy_perf_policy
community/unp: unarj
community/unp: unrar
community/unp: unace
community/volwheel: oss
multilib/q4wine: winetricks
multilib/wine: libcl
multilib/wine: lib32-libcl
```

- Assignee set to ovruni

#4 - 2015-06-13 10:03 PM - ovruni

- File *optional-blacklisted.sh* added

I updated the script to search only dependencies on blacklisted packages **unreplaced**.

```
==> Checking packages...
core/groff: netpbm
extra/smplyer: smtube
extra/spamassassin: razor
community/jad: vim-jad
community/vor: netpbm
pcr/note: perl-crypt-cbc
```
