Description ~ \$ sudo pacman -S conky [sudo] password for jgart: resolving dependencies... warning: cannot resolve "libxnvctrl", a dependency of "conky" :: The following package cannot be upgraded due to unresolvable dependencies: conky :: Do you want to skip the above package for this upgrade? [y/N] Does anyone know why I am getting this warning when trying to install conky via the parabola repos?	

History

#1 - 2020-05-22 11:12 AM - bill-auger

- Status changed from unconfirmed to duplicate

'libxnvctrl' is a blacklisted package - conky either needs to be modified to work without it; or it needs to be blacklisted itself

duplicate of <https://labs.parabola.nu/issues/2477>

- % Done changed from 0 to 80

There is now an conkey package in [libre-testing] has been built and pushed for x86_64 and i686. People should definitely test it out and report back. ARM fails in config looking for a curses library. I'll have to track that down.
