Packages - Bug #2804

dbus and dbus openrc clash while updating

2020-06-14 09:43 AM - infinite_recursion

Status:	duplicate	**% Done:**	0%
Priority:	bug		
Assignee:	Megver83		
Category:			

Description
When I execute "sudo pacman -Syu"
I get the following message and my updates do not complete:
error: failed to prepare transaction (could not satisfy dependencies)   :: installing dbus (1.12.18-1) breaks dependency 'dbus-openrc' required by avahi-openrc
I use openrc version of parabola ofc.

yep, it's the same thing

infinite_recursion, you should have posted this in the mailing list first, or at least do some digging, as you can see, you made a duplicated report from a fixed issue

you have to install nonsystemd/dbus

https://wiki.parabola.nu/Nonsystemd

make sure to have [nonsystemd] **above** [core] in pacman.conf
