# pacman -Syu			
error: failed to prepare transaction (could not satisfy dependencies)			
:: removing icu-parabola breaks dependency 'icu-parabola' required by icedove			
x64			
openrc			

History

#1 - 2020-06-29 12:34 AM - bill-auger

try this:

```
# pacman -Syu --ignore=icu-65-compat
```

#2 - 2020-06-29 10:23 PM - doolio

I have a similar and possibly related issue when trying to perform a system upgrade. Current installed version of icu is 65.1-3.0, Icecat version 60.7.0\_gnu1-2.

```
error: failed to prepare transaction (could not satisfy dependencies)
:: installing icu (67.1-1.0) breaks dependency 'icu<66' required by icecat
```

#3 - 2020-06-29 10:51 PM - bill-auger

- Status changed from unconfirmed to confirmed

doolio -

your description of the problem can not be completely accurate - icecat 60.7.0\_gnu1-2 does not have any conflicts currently - it depends on icu 67 and is installable - off-hand i can only suggest to run `pacman -Syu` - if you still have trouble, be sure to include the exact command which you typed in addition to the errors that it produced, and which arch you are runnig

- Description updated

#5 - 2020-07-01 10:42 AM - bill-auger

- Status changed from confirmed to in progress

icedove v1:68.9.0-1.parabola1 fixes this - x86\_64 is in the repos - i686 is still building

I-m sorry but I didnt solve it :(

Maybe Should i wait? right?

#9 - 2020-07-03 11:55 PM - bill-auger

- Status changed from fixed to in progress

you are using the nonprism/icedove i686 maybe - i forgot about to upgrade nonprism/icedove

#10 - 2020-07-04 01:33 AM - bill-auger

nonprism/icedove 68.8.0-1.parabola3.nonprism1 also installs for me for x86\_64 - your problem must be something different - if you are not using i686, can you post exact commands and error messages?

#11 - 2020-07-04 04:50 PM - libreuser

Now, error has changed:

```
LC_ALL=C pacman -Syyu
