Description	
Do pacman -Rs clisp fcall and pacman -Syu clisp. Now run clisp, you'll get the following error:	
<pre>\$ clisp /usr/lib/clisp-2.49.93+/base/lisp.run: error while loading shared libraries: libffcall.so.0: cannot open shared object file: No such file or directory</pre>	
Indeed, installing fcall resolves the problem. Person have to install fcall perself, it's not a dependency of clisp package.
