

## Packages - Bug #2886

### systemd and openrc are in conflict (systemd-tools)

2020-08-31 09:14 PM - bill-auger

<b>Status:</b> confirmed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b> bill-auger	
<b>Category:</b>	
<b>Description</b> this is related to <a href="#">#2884</a> - we caused these bugs semi-intentionally this week, and are still working through the details to smooth things out - the full explanations is given on ticket <a href="#">#2884</a>  this ticket is to collect, and resolve any conflicts which arise from the latest change to 'nonsystemd/base'	
<b>Subtasks:</b> Bug # 2884: your-initfreedom and systemd-nss-myhostname are in conflict <span style="float: right;"><b>confirmed</b></span>	

### History

#### #1 - 2020-08-31 09:16 PM - bill-auger

the first one that i found was the 'cups' package - it is required by 'posix' and depends on 'systemd' - this will need to be resolved, so that 'posix' can be installed on nonsystemd systems

#### #2 - 2020-08-31 09:17 PM - bill-auger

redmine user 'lake' reported a related conflict on the forum

lake - exactly what was the command that you typed, which exposed the conflict?

#### #3 - 2020-08-31 09:26 PM - lake

bill-auger - The command was pacstrap /mnt xorg-server.

#### #4 - 2020-08-31 09:48 PM - bill-auger

could you try this command instead:

```
# pacstrap /mnt xorg-server elogind
```

#### #5 - 2020-08-31 10:17 PM - lake

Looks like that worked.
