

Packages - Privacy Issue #2907

[xscreensaver] Should not use screen display by default

2020-10-09 09:42 AM - sdfijsaodif

Status: not-a-bug	% Done: 0%
Priority: bug	
Assignee: freemor	
Category:	
Description Xscreensaver should not use what is displayed on screen in its screensavers by default. This may leak sensitive data.	

History

#1 - 2020-10-09 11:36 AM - freemor

- Assignee set to freemor
- Status changed from unconfirmed to not-a-bug

Users with such security concerns should disable the screensaver modules that do such in xscreensaver preference if they have such concerns.

If you are in a high security environment locking down a system is the admins/users responsibility not the Distros.

Parabola is a general purpose Distro. Not one aimed at high security environments. This request falls outside Parabola's mandate of ensuring software freedom.
