| <b>Description</b><br><a href="https://github.com/mherzberg/wlr-brightness">https://github.com/mherzberg/wlr-brightness</a><br>Being a sway user, having an easier control of brightness is helpful for users who are new to Linux. Currently, I've been having headaches because of the screen brightness and I feel like it's time I'd do something about it. |                   |
