| Description | |
| <p>This can't be installed (at least on my x86_64 machine) because one of the dependencies isn't in the repos. Since this is a meta package, could the dependency just be removed from the list?</p> | |
| <pre>HuuHaa-3# LC_ALL=C pacman -S plasma-meta resolving dependencies... warning: cannot resolve "user-manager", a dependency of "plasma-meta" :: The following package cannot be upgraded due to unresolvable dependencies: plasma-meta :: Do you want to skip the above package for this upgrade? [y/N]</pre> | |

yes, 'user-manager' just needed to be removed from the list - that package was absorbed into 'plasma-desktop' recently

plasma-meta v5.20 fixes this conflict
