<b>Description</b> I recently had a problem when I tried to rebuild my chroot to package packages (duh :D) Because some packages specified on <b>/etc/libretools.d/cleansystem</b> don't exists on ours repo anymore, so I just deleted initscripts and another two packages.

Bug [#300](#)? This is not a bug, This is SPARTAAAA! xd

##### #3 - 2013-03-07 05:59 PM - Anonymous

you can type on terminal => sudo update-cleansystem

It should fix the problem

That file isn't part of the package, it is generated by `update-cleansystem`.

That file has also been deprecated in development versions of libretools.
