- Description updated

i can not reproduce this - maybe it fixed itself?

```
$ pacman -Qs openntpd
local/openntpd 6.8p1-1
  Free, easy to use implementation of the Network Time Protocol
local/openntpd-openrc 20190211-1 (openrc-net)
  OpenRC openntpd init script
```

```
$ sudo /etc/init.d/ntpd start
* Caching service dependencies ... [ ok ]
* Starting OpenNTPD ...
creating new /var/db/ntpd.drift [ ok ]
```

FWIW, the openrc "way" is the `rc-service` command

```
$ sudo rc-service ntpd start
* Starting OpenNTPD ...
/var/db/ntpd.drift is empty [ ok ]
bill@parabola:/packages/abslibre/libre/icecat/(master?[0<-->1]) 2021-06-04 [icecat]: wip - tweak for i68
```

##### #2 - 2021-06-04 12:06 PM - oaken-source

Yes, the problem still persists:

```
$ sudo rc-service ntpd start
* ERROR: ntpd needs service(s) net
```

could you look at your installed service files, and find out which one provides the 'net' service?

##### #3 - 2021-06-04 12:19 PM - bill-auger

```
$ grep provide /etc/init.d/NetworkManager
  provide net
```
