Description	
<ul style="list-style-type: none">steps to reproduce: Try to build a package using <code>libremakepkg</code>, which has <code>aom-3.1.1-1-x86_64</code> as a dependency, either directly or indirectly. This is happening to me when trying to build the latest version of <code>minitube</code> (3.9).expected result: It should build successfully, even after switching to a different default mirror.actual result: Instead, <code>libremakepkg</code> prints the following error:	
<pre> > > Total Download Size: 49.39 MiB > Total Installed Size: 792.63 MiB > > :: Proceed with installation? [Y/n] > :: Retrieving packages... > aom-3.1.1-1-x86_64 downloading... > error: failed retrieving file 'aom-3.1.1-1-x86_64.pkg.tar.zst' from mirror.fsf.org : The requested URL returned error: 404 > warning: failed to retrieve some files > error: failed to commit transaction (failed to retrieve some files) > Errors occurred, no packages were upgraded. ==> ERROR: Failure(s) in pre_build: clean_chroot</pre>
