- Subject changed from texlive-bin and poppler in conflict on a recent upgrade to [cups-filters][texlive-bin]: installing poppler (N) breaks dependency

cups-filters and texlive-bin must be re-built often, due to fast-moving poppler - there is a permanent open ticket, which we prefer to re-use: #2546

please watch that one, and bump it in the future, anytime you get: "installing poppler (N) breaks dependency"
