Packages - Bug #3082

[pipewire].nonsystemd cannot resolve "libopenaptx.so=0-64"

2021-08-17 09:34 AM - Phosit

Status:	not-a-bug	**% Done:**	0%
Priority:	bug

Description

I can't install pipewire on a openrc system.

Either libopenaptx needs to bee packaged or pipewire needs a rebuilt aggainst libfreeaptx.

- Status changed from unconfirmed to not-a-bug

both nonsystemd/pipewire and extra/pipewire can be installed on a nonsystemd system - maybe this bug fixed itself?

in any case, it appears that nonsystemd/pipewire is not needed; so i removed it
