

## Packages - Bug #3103

### Upgrade not possible due to unverified keys

2021-09-29 05:33 PM - maddox

<b>Status:</b> unconfirmed	<b>% Done:</b> 0%
<b>Priority:</b> bug	
<b>Assignee:</b>	
<b>Category:</b>	
<b>Description</b> My latest upgrade was not possible due to unverified keys.  I use this command:  1. sudo pacman -Sy && sudo pacman -Su  And several packages were not or could not be verified, including of Bill Auger, so is there anything I should do? I can upgrade only if I designate trust to Never.	

### History

simply install the latest keyring package first

1. pacman -Sy parabola-keyring # pacman -Su

#### #2 - 2021-10-04 05:14 AM - telur

im usually do these:

- 1.pacman -Sy parabola-keyring archlinux-keyring
- 2.pacman-key --init
- 3.pacman-key --populate parabola arch
- 4.pacman-key --refresh-keys
