Category:	
Description please update or remove the package current nonprism version nonprism/gnome-settings-daemon 3.34.1+1+ge1fc4599-1.nonprism1 current version extra/gnome-settings-daemon 40.0.1-2	

History

#1 - 2021-10-14 01:19 AM - telur

edit: later i found not just gnome-settings-daemon but some packages in parabola official custom repo seems to be obsolete compared to latest version, this redundant packages cause issues and continuous package downgrading in sys upgrade.

might change the title into "please remove obsolete package"

some obsolete packages im spotted

nonprism
