<b>Description</b>	
Hi there !	
Thanks a lot for creating the package gnuhealth !	
We're missing some requirements, such as postgresql. I have documented the requirements for Arch on Wikibooks [0] . I think it would be a good start to check the packages there.	
Thank you again for integrating GNU Health in Parabola !

Best,	

#### History

##### #2 - 2013-04-21 12:57 PM - Anonymous

Hi, i readed your link and i added the missing dependencies on the new revision [0], except gcc due that is unnecessary, that package is included on our distro by default

Now that revision is available on Parabola, please check if it is fine or if is necessary add more dependencies.
