this one could take a while - the upgrade (v3) has missing java dependencies

```
| > resolving dependencies...
| > :: There are 3 providers available for java-runtime:
| > :: Repository extra
| > 1) jre-openjdk 2) jre11-openjdk 3) jre8-openjdk
| >
| > Enter a number (default=1): warning: cannot resolve "java-resolver", a dependency of "xerces2-java"
| > warning: cannot resolve "xerces2-java", a dependency of "xalan-java"
| > warning: cannot resolve "xalan-java", a dependency of "java-batik"
| > warning: cannot resolve "java-resolver", a dependency of "xerces2-java"
| > warning: cannot resolve "xerces2-java", a dependency of "java-batik"
| > warning: cannot resolve "java-batik", a dependency of "fop"
```

same result, specifying jre11-openjdk and jre8-openjdk

'java-resolver' is the missing package

```
$ for pkg in java-resolver xerces2-java xalan-java java-batik fop ; do pacman -Ss ^"$pkg"$ ; done
libre/xerces2-java 2.11.0-3.parabolal
  High performance fully compliant Java XML parser
libre/xalan-java 2.7.2-1.parabolal
  XSLT processor for transforming XML documents into HTML, text, or other XML document types
libre/java-batik 1.9-1.parabolal
  SVG library for Java.
libre/fop 2.2-1.parabolal
  XSL-FO implementation in Java.
```
