

libretools - Bug #318

[libremakepkg] support SRCBUILD, mksource=()

2013-05-02 09:12 AM - lukeshu

Status:	fixed	% Done:	100%
Priority:	bug		
Assignee:	lukeshu		
Category:			
Description			
With librefetch, running the SRCBUILD can be done automatically as part of `makepkg -o`; however, if doing this from outside of a chroot with libremakepkg, then the SRCBUILD and supporting files must be copied into the chroot.			
Similarly, files named in mksource=() need to be copied.
